Discussion: Edward L. Russell, M.D., Orange County Health Officer, Santa Ana.
3. Rural Health Problems—Ellis D. Sox, M.D., Tulare County Health Officer, Visalia.
Discussion: E. M. Bingham, M.D., San Luis Obispo County Health Officer, San Luis Obispo.

CHINESE EGGS

One lot of Chinese powdered eggs totaling 2,000 pounds was received at the port of San Francisco during July. In accordance with the provisions of the Imported Egg Law, the lot was inspected and certificates of inspection attached to each container. This marks the second small lot of eggs imported from China received since the first of the year. Two dollars is charged for each certificate issued, and the eggs are kept under supervision until disposition is made.

WALNUT SHELLING LAW IS ENFORCED

In accordance with the provisions of an act of the last Legislature, licenses are now issued to walnut shelling plants throughout the state. Conditions have improved greatly since the enactment of this law. Heretofore, walnuts were distributed promiscuously to families, for shelling. The sanitary con-

ditions under which nuts were shelled and stored were extremely objectionable. Home shelling has now been eliminated and those who formerly worked at home are now engaged in activities in licensed establishments which conform to the requirements of the Food Sanitation Act. During July, more than a ton of walnut meats were quarantined in shelling plants for the reason that they were worm-infested and unfit for human consumption.

VINTAGE WINE

A total of 8,727,030 gallons of wine has been inventoried by the Bureau of Food and Drug Inspection, a considerable portion of which is being considered for vintage approval. During July, considerable time has been spent in sampling bulk wines on the retail market. Difficulty is experienced in maintaining high quality in dry wines which do not continue to be sound for long periods of time after the container has become partially emptied. Under regulations, vintage wine can only be bottled at the wineries under the supervision of inspectors of the bureau. During the month considerable quantities of vintage wine were bottled.

MARINE SALVAGE

A cargo damaged in a shipwreck off the coast of Mexico was placed in quarantine in Los Angeles. Some of the material was salvaged at the site of the wreck and was landed in San Francisco. More than 4,500 cases of assorted drugs and cosmetics, badly damaged, were landed at Los Angeles. More than 15,000 cases of drugs and 108,000 cases of whiskey were quarantined in San Francisco, but later released because inspection revealed that the merchandise is of saleable quality.

RAW SUGAR

The sale of raw sugar labeled "not intended for direct human consumption" and "not a food" was investigated by the bureau. It was disclosed that this sugar was being offered for retail sale after being repacked by a Los Angeles wholesale grocery concern. Official samples were taken in order to determine by chemical analysis the true condition of the sugar, which is undoubtedly an unrefined product in the crude stage, containing considerable amounts of impurities and foreign material.

MORBIDITY**Complete Reports for Following Diseases for Week Ending August 24, 1940****Chickenpox**

95 cases: Alameda County 1, Oakland 4, San Leandro 3, Walnut Creek 1, Fresno County 2, Kern County 5, Lake County 1, Lakeport 1, Los Angeles County 6, Alhambra 2, Los Angeles 15, Monrovia 2, San Gabriel 1, Monterey County 2, King City 1, Orange 8, San Diego County 1, Coronado 1, San Diego 13, San Francisco 7, San Joaquin County 1, Stockton 2, San Luis Obispo County 8, Santa Clara County 1, Sonoma County 2, Tulare 1, Winters 1, Yuba County 2.

Diphtheria

13 cases: Oakland 1, Los Angeles 3, Santa Ana 1, Riverside County 1, San Diego 1, Stockton 1, San Luis Obispo 1, Shasta County 1, Yreka 2, Ventura 1.

German Measles

77 cases: Butte County 2, Kingsburg 1, Los Angeles County 1, Los Angeles 2, Monrovia 1, Pasadena 2, Mariposa County 63, Riverside 1, San Diego County 1, San Francisco 2, Shasta County 1.

Influenza

10 cases: Los Angeles 2, San Francisco 1, San Mateo 1, Sonoma County 6.

Malaria

10 cases: Fresno County 1, Yosemite National Park 1, Ontario 1, Sutter County 3, Yolo County 2, Winters 1, Yuba County 1.

Measles

41 cases: Alameda County 1, Berkeley 1, Oakland 1, Sanger 1, Kern County 1, Los Angeles County 2, Los Angeles 8, Napa 1, Orange County 2, Anaheim 1, Riverside County 1, Sacramento 2, San Diego County 3, Chula Vista 1, San Diego 6, Stockton 1, San Luis Obispo County 2, San Luis Obispo 1, Santa Barbara 2, Palo Alto 1, Woodland 1, California 1.*

Mumps

106 cases: Berkeley 1, Oakland 9, Fresno County 1, Coalinga 1, Lake County 1, Los Angeles County 5, Glendale 2, Long Beach 2, Los Angeles 14, Monrovia 2, Pasadena 4, South Pasadena 1, South Gate 1, Monterey County 1, Anaheim 3, Fullerton 8, Huntington Beach 1, Newport Beach 2, Orange 1, Santa Ana 1, Placer County 1, Sacramento 1, San Diego County 3, San Diego 2, San Francisco 1, San Luis Obispo County 2, Paso Robles 4, Santa Maria 2, Palo Alto 8, Santa Cruz 1, Shasta County 17, Stanislaus County 1, Visalia 1, Ventura County 1.

Pneumonia (Lobar)

11 cases: Brawley 1, Los Angeles County 2, Los Angeles 3, Monrovia 1, Monterey 1, San Bernardino 1, San Joaquin County 1, Stockton 1.

Scarlet Fever

48 cases: Alameda County 2, Fresno County 3, Fresno 1, Kern County 1, Los Angeles County 9, Glendale 1, Los Angeles 5, Pasadena 1, Pomona 2, South Gate 1, Bell 1, Orange County 1, Riverside 1, Sacramento 5, San Diego County 1, San Diego 2, San Francisco 2, San Luis Obispo County 1, Santa Barbara 2, Sonoma County 1, Petaluma 1, Sutter County 1, Ventura County 2, Oxnard 1.

Smallpox

No cases reported.

Typhoid Fever

8 cases: Fresno County 2, Monterey County 1, Sacramento 1, San Francisco 1, Modesto 2, California 1.*

Whooping Cough

282 cases: Oakland 5, Colusa County 1, Contra Costa County 1, Fresno County 5, Fresno 3, Kern County 3, Los Angeles County 32, Arcadia 2, Burbank 2, El Monte 4, Glendale 1, Huntington Park 4, Long Beach 2, Los Angeles 90, Monrovia 1, Pasadena 11, San Fernando 1, San Gabriel 1, South Pasadena 1, Torrance 3, Hawthorne 1, South Gate 13, Monterey Park 1, Signal Hill 3, Maywood 1, Bell 3, Orange County 11, Anaheim 1, La Habra 4, Placentia 3, Placer County 1, Plumas County 4, Riverside County 1, Indio 1, Sacramento 1, Chula Vista 4, San Diego 6, San Francisco 19, San Joaquin County 1, Lodi 1, Stockton 4, San Luis Obispo County 3, San Luis Obispo 1, San Mateo 2, Santa Barbara County 2, Santa Barbara 7, Santa Clara County 2, Santa Cruz County 2, Modesto 1, Ventura County 4.

* Cases charged to "California" represent patients ill before entering the state or those who contracted their illness traveling about the state throughout the incubation period of the disease. These cases are not chargeable to any one locality.

Dysentery (Amoebic)

2 cases: Alameda County 1, Los Angeles County 1.

Dysentery (Bacillary)

6 cases: Los Angeles 4, Mendocino County 1, Santa Clara County 1.

Leprosy

One case: Oakland.

Ophthalmia Neonatorum

One case: Los Angeles County.

Poliomyelitis

16 cases: Los Angeles County 2, Glendale 1, Huntington Park 1, Long Beach 1, Los Angeles 7, San Bernardino 1, Santa Barbara 3.

Tetanus

One case: Maywood.

Trachoma

One case: Fresno.

Encephalitis (Epidemic)

15 cases: Berkeley 1, Fresno County 4, Reedley 1, Bakersfield 1, Sacramento County 1, Sacramento 2, Sutter County 2, Tulare County 1, Woodland 1, Yuba County 1.

Paratyphoid Fever

One case: Oakland.

Trichinosis

2 cases: Oakland 1, Placer County 1.

Food Poisoning

5 cases: San Francisco 3, Lodi 1, Tulare County 1.

Undulant Fever

6 cases: Oakland 1, Kern County 2, Los Angeles 1, Pomona 1, Tulare County 1.

Coccidioidal Granuloma

3 cases: Kern County 1, Bakersfield 1, Kings County 1.

Relapsing Fever

2 cases: San Bernardino County.

Epilepsy

22 cases: Oakland 2, Fresno 2, Los Angeles 9, Santa Ana 1, San Bernardino 1, San Francisco 4, Lodi 1, Stockton 1, Ventura County 1.

Rabies (Animal)

6 cases: Calexico 1, Los Angeles County 2, Hawthorne 1, San Francisco 2.

Know, or hearken to him who knows. You can not live without knowledge, either your own, or borrowed, but there be many who do not know that they know nothing, and others who think that they know, but know nothing; such deformities of the mind are incurable, whence it is that the ignorant do not know themselves, thus failing to discover what they lack. Some would be wise, if they did not believe that they were, and so it comes to pass that even though the oracles of wisdom are few, they live in idleness, because none consults them: it does not dwarf grandeur, nor argue against capacity to seek advice, yea, to seek advice brings credit; better to debate in the mind, to avoid combat with misfortune.—*Baltazar Gracian, 1653.*
